ABOUT ME

I am a creative full-stack developer with a strong eye for clean design and smooth user experiences. I enjoy building practical, scalable solutions, turning ideas into polished products, and continuously learning better ways to write, ship, and improve software.

WORK RXPERIENCE

Full-Stack Developer | Nitastores
Built Nitastores' e-commerce engine using php. I polished the checkout flow to keep things snappy and user-friendly.

Systems Engineer | The Buraq
Built a smooth React/PHP webapp for The Buraq. I connected IoT sensors to save lives via instant drowning alerts.
